Thanks to this book, bonsai-lovers will know everything they need to know about cultivation and care of the different and numerous varieties.

Content:

- General presentation: some History, the Art of the bonsai.
- How to chose your first bonsai?
- Useful information on the different species: skills, pros and cons, ideal cultivation conditions, how to take care of your bonsai, etc.
- SOS bonsai: The most frequent problems and their solutions.
- How to create your bonsai?
- To learn more about the bonsai universe.

The Author:

Olivier Gihaut (Brittany) is eco-designer in landscapes and is in charge of the green spaces of his city. He manages an ecological garden of 1575 m² that people can visit. This garden is based on permaculture for 20 years. He is passionate about bonsais for ever and for many years he used to be part of a club focusing on the Art of bonsai.
