

Celebration Recipes Gluten and Lactose Free

40 delicious and healthy recipes

It is possible to change only a few ingredients from our famous and traditional celebration recipes to have something delicious and lighter.

Almond and coconut milks - which are alternatives to cow's milk - will bring smoothness and sweetness to celebration recipes. By this change, these recipes will be much easier to digest.

A total of 40 recipes are available, one for each small or big event. Diner between friends, chocolate pie for Easter, Christmas cookies, blinis for New Year's Eve, almond-coco ice cream for Summer parties, etc.

La Mandorle is number one in France in producing bio almond milk. Pioneer in the conception of products without milk or gluten, they developed - with the help of the Ministry of Research - a patent to produce vegetal beverage focusing on digestive tolerance and nutritional answers.
