

# I Learn to Sew for Baby

Author: Marie Ledemé

## Synopsis:

Pregnancy is the best moment to start a new craft activity. It is very frequent that future mums want to do themselves everything that will be around baby at birth. This is the perfect guidebook to accompany young seamstresses in their first sewing steps. Each project is explained step by step with photos and detailed lessons make the more difficult steps clearer.

## Content:

15 creations that mothers can do themselves to have everything ready for baby.  
15 lessons to learn how to sew like a pro!

## The Author

**Marie Ledemé** (Paris) studied stylism and modelism in ESMOD and then created a clothing brand for children, specialised in wax. She teaches sewing for all skill levels in Paris.
