Synopsis

Initiate yourself or improve for needles works in more than 100 illustrated lessons. Thread's art always bring together two kinds of fans. Those of wants to learn with following explanations and to realise an exact model. And those whow search an idea to make it with her own taste, by changing the colors, the stuff... Or by doing partially the work in a creative way.

This book is targeting for these two types of practitioner. For the first part of each chapter, the technicals approach are explained with detailed illustrations. For the second part, basic works are suggested with explanations, to be close to identically or just to take inspiration from it.
