■ Synopsis

This book starts with an inspirational introduction - it encourages the reader to 'play' and be creative. One point must be made regarding this book, before starting get yourself familiar with soldering. This doesn't mean that you shouldn't purchase this wonderful book, but that a bit of groundwork should be done whilst being inspired by the work pictured within its pages. There is good information regarding tools and safety at first before starting on the techniques section. The designers show how to weave wire using wires of varying thickness to create wonderful pieces of jewellery.
