

Gardens in Small Places

March 2018

Synopsis:

You have a small space like a balcony or a terrace and want to turn it into a garden but need to know how to ?

The book will tell you how to set up a garden scene in a small place and how to choose your seeds, plants, pots..

Create your garden scene needs a thoughtful preparation at the beginning but not too much attention afterwards.

The book will guide you on the best way to have your flowers blooming in a small place, what plants will suit it best, how to heal a plant.. and even create your own vegetable garden.

Content:

- Find out the climate of your garden
- What plants to choose
- How-to have a successful seeding
