The Author:

Sandrine Prévost describes herself as a mother of three, addicted to decoration, but a unique and personalized one. As a DIY addict in quest of a simplified organization, it is important for her to do the maximum of things herself. She loves to give a second life to objects and to change them from their original purpose. She is fond of recycling and re-using. She created a blog (mon-carnet-deco.com) to share her ideas and prove that to have an original and personalized house, there is no need to spend much money.
