

# Bible of the Zero Waste

Green habits, miracle products, tips to recycle...

Author: Isabelle Louet

## How to take part – at our level – in protecting the Earth thanks to simple habits?

People often ask themselves where to start when aiming at reducing waste at home. In this guide, they will find explanations and advises on how to start. It is a real beginner's guide on ecology.

Decluttering, recycling, new habits of consumption, creation of home-made cleaning products and beauty products: each step is approached in details with numerous tips easy to apply in the everyday life.

Content: Objective zero waste – Becoming greener – The new miracle products.
